

SBFFA Clay Crushers

2021-2022 Shooting Team

Welcome! We are so excited about your interest in the Spring Branch FFA Clay Crushers shooting team for the 2021-2022 year. This is our 6th year as a shooting team through Spring Branch FFA and we are excited to watch our team grow and develop into a competitive team.

Here are a few things you need to know when signing up...

1. Team dues are \$150 which includes your team shirt and shooting vest (for new shooters). You also have the option of bringing in t-shirt sponsors with a \$250+ donation instead of you dues. (see t-shirt sponsorship form)
2. You are required to shoot in at least 4-6 tournaments throughout the year. To shoot in the majors you must shoot in a qualifying shoot in the fall. Our first shoot will be September 18, 2021 at Texas Premier Sporting Arms in Sealy.
3. Tournament costs range from \$50-\$125 to register.
4. Spring Branch FFA will cover the cost of some of our tournament registration costs, training and other team expenses.
5. You will be responsible for any travel expenses. There are only two out of town tournaments that we participate in located in San Antonio.
6. Register as an athlete on our team with the Scholastic Clay Target Program (SCTP).

7. We will also compete in NSCA tournaments and you will need to join NSCA and get a shooter number. You can enroll in NSCA by going to nsca.nssa-nsca.org (click on “members button” and hit sign-up/renew.)
8. There is also a possibility that we will register as a 4H team as well in order to participate in those tournaments as well.
9. Tournament schedules change constantly and there will be changes as the year goes along. The major tournament dates are set but local tournaments are usually only set out a couple of months and can change.
10. Iclays and winscoreonline are good website sources of upcoming tournaments.
11. If you have questions regarding guns, ear and eye protection etc. I will be glad to give you the information I have.
12. You will be responsible for your own ammunition and gun. Ammunition has been difficult to obtain over the last year and I would suggest buying in bulk when you see it and keeping a supply on hand.

** Any questions please call Trey Barker @ 713-703-2518
